

Boost employee productivity, satisfaction and reduce total cost of ownership

SAP ERP customers can now deploy SAP Fiori apps that provide great user experience to support business tasks on many devices.

Big Sky, Montana – June 1, 2016 – Blue Marble Consulting Inc. has added a new offering to its SAP Fiori collection. A video demonstration shows how easily and quickly an HR Administrator might complete a set of typical tasks, needed to process a hiring. Available across multiple devices, and using an engaging user interface, the administrator is able tackle most common daily business tasks anywhere and anytime.

“with Fiori apps, it is truly exciting to combine having great consumer-quality user experience, while also enabling more productive use of SAP software investments” said Sabrina Sigourney, Founder and CEO, Blue Marble Consulting Inc.

“If you want a ‘no nonsense hands on’ firm that tells the truth about the product and design options, I strongly recommend hiring Blue Marble for any SAP services” said Walter Blessey, Chairman and CEO, Blessey Marine Services.
